TECAFIL PPSU MT blue - 1.75 mm - Filament

Chemical Designation
PPSU (Polyphenylsulfone)

Colour
blue opaque

Density
1.29 g/cm^3 (*2)

Main features
- very good sterilisable
- good chemical resistance
- high gamma radiation resistance
- good heat deflection temperature
- high thermal and mechanical capacity
- hydrolysis and superheated steam resistant

Target Industries
- food technology
- medical technology

General material information	parameter	value	unit	norm		comment
Diameter		1,75 +/- 0,05	mm	-		(1) standard spool body (2) do not dry spool >120°C (3) Ø 1,75mm
Spool measurements	holder	Ø 52	mm	-		
Spool measurements	width	55	mm	-		
Spool measurements	outer diameter	Ø 200	mm	-	1)	
Spool Material		Polycarbonate		-	2)	
Filament Load per Spool		500	g	-		
Filament Length per Spool		152	m	-	3)

Melt flow index (MFI)	365°C / 5kg	12 - 17	g/10 min	DIN EN ISO 1133	2)	

Processing parameter	parameter	value	unit	norm		comment
Nozzle temperature		380 - 420	°C	-		(1) required
Max. melt temperature		450	°C	-		
Print bed temperature		190 - 230	°C	-		
Build chamber temperature		210 - 230	°C	-	1)	
Nozzle diameter		0,4	mm	-		
Print speed		30 - 40	mm/s	-		
Fan speed		0	%	-		

Predrying	parameter	value	unit	norm		comment
Drying temperature		120	°C	-	1)	(1) (*4)
Drying time		6	h	-		

- To achieve optimum mechanical properties, it is recommended to pre-dry the material with the above mentioned parameters.

(*1) Values measured on injection moulded test specimens
(*2) Values measured on the raw material
(*3) The exact parameters depend on the printer used.
(*4) Do not exceed maximum drying temperature of 120°C
(*5) Properties tested on printed specimens
(*6) Specimens printed on Kumovis R1

➜ The filament should preferably be stored in dry, normal temperature rooms and protected from direct sunlight.

Our information and statements reflect to current state of our knowledge and shall inform about the products and their applications. They do not assure or guarantee chemical resistance, quality of products and their merchantability in a legally binding way. Our products are not defined for use in medical or dental implants. Existing commercial patents have to be observed. The customer is sorely responsible for the quality and suitability of products for the application and has to test usage and processing prior to use. Data sheet values are subject to periodic review, the most recent update can be found at ensingerplastics.com. Technical changes reserved. European-made or imported varieties comply with REACH Regulation 1907/2006 / EC as amended Unless otherwise noted, these values were determined by tests on injection moulded samples, dry as moulded. The corresponding values and information are no minimum or maximum values, but guideline values that can be used primarily for comparison purposes for material selection. These values are within the normal tolerance range of product properties and do not represent guaranteed property values. Therefore they shall not be used for specification purposes. In order to achieve optimum mechanical properties, pre-drying of the material is recommended with the parameters mentioned above Filaments should preferably be stored in dry rooms at normal temperatures and be protected from direct sunlight.
